Have you ever been asked, “What are you going to do with a sociology major?” Sociology majors tend to have diverse interests, and sociology is a flexible major where you can follow your own curiosity and choose a path where you can thrive and grow. Graduates of the major find that studying sociology prepares them for a wide range of careers in education, technology, advertising and PR, environmental advocacy, occupational therapy, data sciences, and more.

CAREER LAUNCH WORKSHOP

Sociology Student Services office is excited to be able to offer our majors access to an exclusive workshop! Career Launch is only available to students in a few departments in the College of Arts & Sciences so don’t miss your chance to participate in this great new program! Led by College staff and Departmental Advisors, this 90-minute workshop is designed specifically for recently declared A&S majors. We will outline career paths you can follow, and help you determine additional steps and strategies you may want to take in order to pursue a fulfilling career with your A&S degree.

From learning about internships and building your resume, to networking techniques and exploring the scope of your major, this workshop is a great opportunity for you to get your feet wet and start crafting a career path with your Sociology major.
