FELLOWSHIPS:

2022 West Coast Poverty Center Dissertation Fellowship Recipient

PROFESSIONAL RESEARCH EXPERIENCE:

Research Assistant at Law, Societies and Justice Department, University of Washington 06/20-06/21

- Work with Dr. Katherine Beckett on a collaborative evaluation of JustCARE, an initiative providing supportive interim housing to people facing homelessness in Seattle. Tasks include survey development and programming in RedCap; conducting qualitative interviews with program participants and staff; doing qualitative analysis in Atlas.ti; contributing to report write-ups.

Research Assistant at the Center for Studies in Demography & Ecology (CSDE), University of Washington 08/19-12/21

- Work with Dr. Matt Dunbar and Dr. Kyle Crowder to support analysis of neighborhood contexts of health for the environmental core of the Dog Aging Project, a large-scale national longitudinal research initiative assessing factors of healthy aging in companion dogs. Primary duties include geocoding of respondents’ residential addresses using R and esri ArcMap software; linking geocoded coordinates to secondary environmental data; data management and storage assistance.

Research Assistant II, Oregon Health & Science University 09/16-08/18

- Work with principal investigator Dr. Honora Englander on multiple research projects focusing on the effects of the improving addiction care team (IMPACT), a multi-component addiction medicine intervention at OHSU led by Dr. Englander. Primary duties included conducting qualitative interviews with hospital staff and patients; conducting qualitative analysis using Atlas.ti; writing and preparing manuscripts for publication in peer-reviewed journals.

Graduate Research Assistant, Columbia University 09/15-07/16

- Worked with principal investigator Dr. Denise Milstein as a collaborative partner in the design and implementation of a longitudinal sociological research project focusing on the relationship between urban adolescents and green space availability and use. Primary duties included participant observation and survey administration to high school students visiting urban green spaces.

Interview Coordinator, PSU Survey Research Lab 09/14-08/15

- Worked supervising phone interviews on behalf of local and statewide governmental organizations, trained interviewers, assisted in survey design and analysis.
